Nuclear End Use Certification (Appendix A)

ASCO and its divisions and subsidiaries are strongly committed to conducting its business affairs in full compliance with all applicable U.S. and international laws. For products to be supplied by Emerson entities for use in nuclear facilities, Emerson requires documented evidence demonstrating its adherence to the regulations in the countries in which Emerson conducts business.

In consideration of ASCO direct and indirect sales (through distributors, subcontractors, suppliers and others in the distribution channel), including future sales of products to the End-User identified herein, End-User certifies the following:

A) All equipment and technology supplied by ASCO will be used only for civilian nuclear power generation; and not for uses as provided for in 744.2(a) of the Export Administration Regulations.

B) Equipment and technology supplied by ASCO will not be transferred to another location or country without the prior written consent of ASCO.

End-User Company Name: ESS

End-User Address: ODAR SLOWAGEN 113, 22592 Lund

Name of Nuclear Power Plant: NA

Authorized Signature:
